

15M Lifting Firefighting Robot RXR-M40L

Fire extinguishing robots can replace fire rescue personnel to enter the scene of **flammable**, explosive, toxic, **oxygen deficient**, and thick smoke hazardous accidents for firefighting, effectively solving the personal safety faced by firefighters in the aforementioned places.

01

Water cannon

Imported water cannon with 40L/s flow, range 50M

02

Acquisition

Collecting images around the robot and transmitting them to the control center at all times

03

Information collection

Flammable gas concentration, fire site temperature and humidity

04

Self protection

Front and rear collision prevention function of the vehicle body

05

Audible & visual alarm

Sound and light alarm issued during the operation of the robot body

06

Lighting

Dual LED strong lighting system

Product Specification

- ✓ Dimension: 7500*2000*2400mm
- ✓ Endurance time more than 6hr
- ✓ Weight: 7400KG
- ✓ Operation speed: 1.2m/s
- ✓ Lifting time: 150s
- ✓ RC distance wireless: 500m Wired:15m
- ✓ Protective grade: IP67

Application

High temperature

Collapsible

High voltage power grid

Fire trucks and personnel cannot approach

High buildings
