INSTRUCTIONS FOR THE SAFE HANDLING OF YOUR CUTTING TOOL

martor

SECUMAX 145 MDP

2-in-1 blade head
for cutting and piercing

Integrated grooves
for a better grip

Light, ergonomically designed handle
made of metal detectable plastic

Guide surfaces
for easier angled cutting

Concealed stainless steel blade
for maximum protection of goods
and users

Please note: To ensure your product always functions flawlessly, regularly remove any impurities. For additional safety, we recommend wearing gloves.
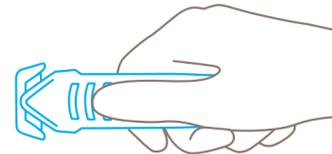

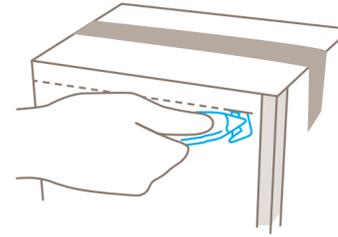

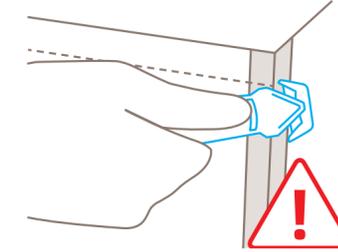

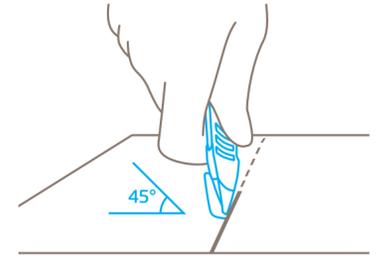

USAGE

For the best possible grip, place your thumb on the **grooved surface**.

**Pierce** into the cutting material using the pointed nose of the knife.

**Do not lever** against staples, or force into edge protectors!

Hold the knife at a **slight angle** when cutting open cardboard boxes.

USAGE

If the blade head gets stuck, **don't forcefully lever** the knife!

Use the **pointed nose** of the knife also to pierce the film.
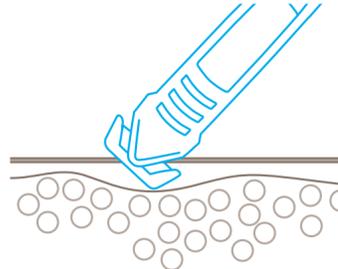

Pierce into cardboard adhesive tape using the **flat edges** on top of the blade head.
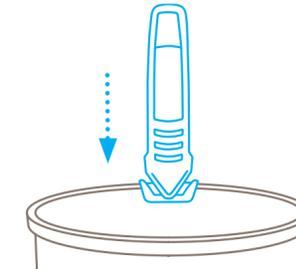

PROTECTION OF USER

The concealed blade provides maximum protection from **cut injuries**.

PROTECTION OF GOODS

The concealed blade **will not get into contact with your goods** either.

DISPOSAL

The SECUMAX 145 MDP is a disposable knife that can be safely disposed of **with your general waste**.
